

# GP Strategies Reports Strong Fourth Quarter and Full Year 2012 Financial Results

**Elkridge**, **MD**. **February 26**, **2013**. Global performance improvement solutions provider *GP Strategies Corporation* (NYSE: GPX) today reported financial results for the quarter and fiscal year ended December 31, 2012.

### **Overview of Fourth Quarter 2012 Results:**

- Revenue of \$106.0 million for fourth quarter of 2012, up \$12.1 million or 13% compared to \$93.9 million for fourth quarter of 2011
- Operating income of \$10.2 million for fourth quarter of 2012, up \$2.0 million or 24% compared to \$8.2 million for fourth quarter of 2011
- EBITDA of \$12.4 million, up \$2.1 million or 21% for fourth quarter of 2012 compared to \$10.3 million for fourth quarter of 2011
- Cash flow from operations of \$8.3 million for fourth quarter of 2012, up \$2.7 million or 47% compared to \$5.6 million for fourth quarter of 2011

The Company's revenue increased 13% or \$12.1 million during the fourth quarter of 2012 compared to the fourth quarter of 2011. The revenue growth was driven by previously completed acquisitions combined with strong organic growth. The Learning Solutions, Sandy Training & Marketing and Energy Services segments achieved double-digit organic revenue growth during the fourth quarter of 2012 compared to the fourth quarter of 2011 due to increased training services for several new and existing customers. Operating income increased 24% or \$2.0 million during the fourth quarter of 2012 primarily due to a \$3.2 million increase in gross profit which was largely attributable to organic revenue growth. Net income was \$6.1 million, or \$0.32 per diluted share, for the fourth quarter of 2011. The fourth quarter 2011 results include a \$0.9 million, or \$0.05 per share, income tax benefit due to the reduction of a tax liability. Excluding this item, diluted earnings per share increased \$0.06 during the fourth quarter of 2012 compared to the fourth quarter of 2011.

The Company achieved record revenue of \$401.6 million for the year ended December 31, 2012, resulting in a 21% overall increase and 10% organic growth over 2011. Operating income increased 28% or \$7.7 million in 2012 to \$35.7 million for the year ended December 31, 2012. Net income was \$22.7 million, or \$1.18 per diluted share, for the year ended December 31, 2012 compared to \$17.9 million, or \$0.94 per diluted share, for the year ended December 31, 2011.

"GP Strategies achieved record results for 2012, with strong organic growth and contributions from acquired businesses continuing in the fourth quarter," commented

Scott N. Greenberg, Chief Executive Officer of GP Strategies. "Our free cash flow of approximately \$22.8 million in 2012 enabled us to continue to make strategic acquisitions while maintaining a strong balance sheet. By our acquisition of BlessingWhite, we strengthened our ability to deliver comprehensive leadership and professional development services to customers on a global basis. We anticipate continued investment in our global platform in 2013."

# Balance Sheet and Cash Flow Highlights

As of December 31, 2012, the Company had cash and cash equivalents of \$7.8 million compared to \$4.2 million as of December 31, 2011. ### Presentation of Non-GAAP Information

This press release contains non-GAAP financial measures, including EBITDA (earnings before interest, income taxes, depreciation and amortization). The Company believes this non-GAAP financial measure is useful to investors in evaluating the Company's results. This measure should be considered in addition to, and not as a replacement for, or superior to, either net income, as an indicator of the Company's operating performance, or cash flow, as a measure of the Company's liquidity. In addition, because EBITDA may not be calculated identically by all companies, the presentation here may not be comparable to other similarly titled measures of other companies. For a reconciliation of this non-GAAP financial measure to the most comparable GAAP equivalent, see the Non-GAAP Reconciliation – EBITDA, along with related footnotes, below.

- (3) Earnings before interest, income taxes, depreciation and amortization (EBITDA) is a widely used non-GAAP financial measure of operating performance. It is presented as supplemental information that the Company believes is useful to investors to evaluate its results because it excludes certain items that are not directly related to the Company's core operating performance. EBITDA is calculated by adding back to net income interest expense, income tax expense, depreciation and amortization. EBITDA should not be considered as substitutes either for net income, as an indicator of the Company's operating performance, or for cash flow, as a measure of the Company's liquidity. In addition, because EBITDA may not be calculated identically by all companies, the presentation here may not be comparable to other similarly titled measures of other companies.
- (4) Net income includes the following infrequently occurring or acquisition-related amounts:
  - Income tax benefits of \$1,602,000 in the third quarter of 2012 and \$891,000 in the fourth quarter of 2011 on the reductions of uncertain tax position liabilities.
  - Net gain of \$74,000 and net loss of \$789,000, on the change in fair value of contingent consideration for the fourth quarter and year ended December 31, 2012, respectively, for which no income tax benefit is recognized, compared to net gains of \$11,000 and \$517,000 for the fourth quarter and year ended December 31, 2011, respectively.
